

Tuesday's Nashville News reported our "broken pledge" editorial of February 11 on the Millwood dam project and in the same issue fired pot-shot against it.

I am publishing Nashville's reply today, withholding any comment until you've had 24 hours to digest this.

No Dam Pledges,  
No Dam Propaganda

(Nashville News Editorial)

We've got NEWS for you, Mr. Washburn, and anyone else in Hope who is perfectly willing to sacrifice the economy of Howard County including Nashville, Mineral Springs, Okie, Schaal and others, even Saratoga in Hempstead County, so that cities below and beside Millwood Dam can get industrial waters.

The Washburn (and I hope not HOPE'S) reasoning is that Millwood will benefit the area and that pledges were made and that the Cement plant would not be affected and that all will be love-dovey in the area when the Corps of Engineers puts some muddy water to saturating up to 102,500 acres of Arkansas land.

The Washburn defense of Millwood is like an Indian attack—it doesn't concentrate it runs round and round the wagon train. So it has to be answered that way. Piece-meal.

Elsewhere in this issue is the editorial written February 12 by the editor of the Hope Star. We'd suggest you read it, remembering that this is an echo of the propaganda started by the Corps of Engineers back as early as 1902 and to which they are still clinging despite such devastating floods as the \$30,000,000 disaster in Kansas where the Engineers built a mammoth dam that would cure floods of all time. Read it remembering that the engineer, Col. C. H. Chorpeneen was the spokesman at the public hearing on March 26, 1947 at Ashdown. Remember that the colonel APPARENTLY was there to consider objections when in REALITY he was there just to ram Millwood down the throats of Arkansans whether they liked it or not. He was there to TELL South Arkansas that the Corps of Engineers was going to put water on their land so they could keep water off the land down in Louisiana. Read it and remember that this same Chorpeneen is No. 2 man with the Corps now where he can pass on his own work.

Mr. Washburn would have a reader believe that the Corp of Engineers never stoops to propaganda. Did Mr. Washburn read the story in the Texarkana Gazette sports column recently that advised fishermen that it might be five or 10 years BEFORE cabins could be built on the shore of the new lakes on Sulphur River? Already they are packing down off their recreational claims. The sales talk of the pre-fab period are beginning to sour. Read Mr. Washburn's column and reflect that the county seat of Hempstead saw and encouraged the conversion of some of their finest farm land to resting place for explosives and some duds and the economic impact is still being felt.

Read it and remember that the atomism (Millwood WILL BE BUILT regardless of what we do) is the result of the air base decision when Hope's case never got a real hearing by the military. We'd even suggest Mr. Washburn go to the files of the Chamber of Commerce in Hope and re-read the Air Force's defense on why they had to go to Little Rock. There was no rationality — just a pre-fabricated decision.

If Mr. Washburn thinks the Corps of Engineers or any military body is INCAPABLE OF ERROR, the editor of this paper can give him the benefit of six years military experience and some at policy level.

If Mr. Washburn thinks Col. Burdick's map is propaganda let Mr. Washburn and other pro-Millwood folks get a topographical map and see HOW FAR the flood-control pool behind Millwood would extend. Take the 293 foot (above sea level) top of the flood control pool, for instance, and plot that flood-control pool boundary on a 1/5 minute series topographic map. See just how far up Mine Creek and Plum Creek the backwaters would go.

As a matter of basic information upon which to defend this area against what we believe the dangers of Millwood, we make two blunt statements to Editor Washburn.

The Dierks Lumber & Coal Company may be the chief antagonist but they don't own a stick of type in this plant. As a matter of fact, this newspaper has never asked them how much of their land would be under water, nor how much timber they would lose if Millwood were built. In our opinion, the effect on the Dierks Company dollar-wise is light by comparison to the effect that Millwood would have on the cement plant and the G&A railway. (Note to Mr. Washburn: The obvious reason WHY the Ideal Cement Company is not aggressively opposing the dam is that indirectly — and possibly directly — the Army Engineers use and plan the usage of a tremendous amount of cement. For example, more than one million tons went into the Narrows Dam.

Millwood is a pig in a poke.

We would respectfully suggest that the seasoned and capable editor of the Hope Star take a second look at the package. It's not worth the price tag for this area and that goes for Hempstead County as well as Howard, Sevier and Little River counties.

Millwood is a pig in a poke.

peared, and that this country must now move forward to strengthen the entire free world in the field of atomic energy.

Mr. Eisenhower noted that a wide variety of atomic weapons now have achieved "conditional status in the arsenal of our armed forces." This indicated rapid development. Three months ago he said they had nearly achieved conventional status—that is similar to ordinary weapons.

The President noted that "most of our friends among the nations" have had little opportunity to learn about the employment of atomic weapons and under present law this country is prohibited from passing on top secret information essential to allied planning for combined military operations and defense against atomic attack.

Our own security will increase as we gain information concerning the use of and the defense against atomic weapons," the President said. "Some of our allies in fact are now producing fissile materials or weapons supporting effective atomic energy development and developing peace instruments for atomic power. All of them should become better informed in the problems of atomic warfare and therefore be prepared to meet the contingencies of such warfare. In order for the world to be an effective

material outside the United States

must be geared to

the atomic facts of this era."

The President recommended specially that the country provide our Allies tactical information essential to the development of defense plans and training of personnel for atomic warfare.

The President also asked that the present law be amended to permit giving friendly nations certain "restricted data" on the industrial application of atomic energy plus the release of fissionable materials "in amounts adequate for industrial and research use."

He recommended a safeguard under which a foreign nation receiving fissionable material for industrial and research use should provide assurances that this material will not be used for military purposes."

This recommendation was apart from Mr. Eisenhower's United Nations atoms-for-peace proposal last December. Legislation to permit participation in the U. N. pool, the President said, would have to await the development of greater areas of international agreement" as a result of our discussions with other nations." Discussions with Russia are underway on this proposal.

The Presidents proposed the AEC could be authorized by the chief executive to permit American citizens and corporations to engage in production of fissionable

## FBI to Peek Into Warren's Record

WASHINGTON (UP) — The Justice Department said today the FBI will investigate Chief Justice Earl Warren for a Senate judiciary subcommittee which is considering his nomination.

The subcommittee meanwhile gave Warren's critics until midnight tomorrow to file their objections to the former California governor now sitting on the high bench under a recess appointment from President Eisenhower.

Chairman William Langer (R-ND) said yesterday that the group will meet Thursday or Friday to consider the complaints against Warren. He would not discuss the complaints with newsmen nor identify the complainants except to say most were from California. Langer confirmed for the first time that the subcommittee had formally requested an FBI report on Warren. It usually gets such reports on nominees only on lesser judicial nominations.

Warren's nomination was submitted to the Senate Jan. 11. Since that time the subcommittee has held one open hearing and at least two closed-door meetings on it without taking any action. Langer said the staff has been sitting through complaints received earlier.

Langer told newsmen he did not know when he will get the FBI report. He first said the subcommittee could not act without it but later refused to say what it might do.

### News Briefs

WASHINGTON (UP) — Sen. McClellan of Arkansas voted for Sen. Fulbright against an amendment to the Bricker constitutional amendment providing for roll call votes on treaty ratifications. The Senate yesterday voted 72-10 for the amendment.

FORT SMITH, (W) — Netha Newmann, 18, charged with first degree murder in the death of her newborn baby here Feb. 8, has been ordered committed to the State Hospital at Little Rock for 30-day observation.

Circuit Judge J. Sam Wood issued the commitment order here Monday. The boy's body was found in the girl's two-room apartment here.

LITTLE ROCK, (W) — Arkansas cattle on Jan. 1 were valued at \$107,382,000, compared with \$148,793,000 for the same date in 1953, a drop of 2 per cent.

The Crop Reporting Service yesterday explained the decline as being due primarily to lowered valuation per head on cattle and calves.

The agency said the number of cattle increased to 1,506,000 head in increased was the third straight year that Arkansas farmers have broken state cattle production records.

LITTLE ROCK, (W) — "The Land of the Cross-Bow," replete with castles, mottes, draw bridges, inns and residents in medieval costumes.

Such would be a medieval kingdom considered as a tourist attraction in North Arkansas.

The Tourist Committee of the Arkansas Economic Council-State Chamber of Commerce was given such a plan to think about yesterday by Harold Sherman, author and lecturer.

Sherman said the kingdom would be set up in the Blanchard Springs area of Stone County and would give Arkansas a tourist attraction not to be found elsewhere in the United States.

### Surplus Food Sent to Poinssett

LITTLE ROCK, (W) — Surplus commodities supervisor J.H. Carter today said 9,000 pounds of surplus foodstuffs were enroute to Poinssett county to feed destitute farm workers.

The food, butter, cheese and shortening from the government's stores, left here yesterday. A total

of 6,000 pounds was consigned yesterday for 1,986 persons. The remainder was sent to market tree for 1,045 applicants made nearly destitute by the long drought and seasonal unemployment.

Carter said a carload of non-fat dry milk, also destined for the relief program, was enroute here from Nashville, Tenn., and will be sent to Poinssett county as soon as it arrives.

The four air force pilots in the film were identified as 1st Lt. Paul S. Knio of San Antonio, Tex.; 1st Lt. John L. Quinn, Altadena, Calif.; 2nd Lt. Floyd B. O'Neal, Fairfax S. C.; and 1st Lt. Kenneth L. Enoch, Youngstown, O.

CHICAGO, Feb 17 (W) — Buying by flour mills lifted wheat out of the dole drums on the Board of Trade today, cancelling losses running to more than a cent and substituting small gains.

Mill buying didn't start until late in the session and it was not as pronounced at Chicago as at MIA. NEAPOLIS, where prices jumped several cents at one time. It reflected an expansion in flour sales after

"I don't think Republicans generally are quite as popular as they were in 1952, but maybe we don't have to be to retain control of Congress," he said.

Watkins, one of the original sponsors of Benson for his appointment to the Cabinet post, said he thinks GOP members generally will applaud Benson's replacement of Howard H. Gordon as administrator of the department's Commodity Stabilization Service, its big crop control and price support agency. Watkins said he thinks most Republicans will look on the shift as a "good start" toward firmer GOP control of the department.

## Oil Unions May Reorganize

PHILADELPHIA (W) — Oil industry labor leaders continued discussion today of a proposal to mold the hedge-podge of unions representing oil workers into one, 212,140-member unit and possibly extend to petroleum, gas, chemical and allied industries. The latter possibility was thrown into the picture yesterday as 140 delegates claiming separate oil workers unions met to discuss formation of the industry-wide union.

## WHAT METHODISTS BELIEVE

God manifests Himself upon the scene of our daily living as the Lord and Giver of life; interpreting the divine will to our human hearts, comforting us in our sore bereavements, awakening within us a hunger for the eternal, quickening our souls to repentance for sin, witnessing with our spirits that we are the children of God. The nature of the Holy Spirit often lies beyond the limits of our knowledge and understanding, but the glorious fact of His presence in our minds and hearts is the central certainty of our Christian experience.

## Asks Billion to Help French Fight Reds

BY HERBERT FOSTER

WASHINGTON, (UPI) — Sen.

H. Alexander Smith (R-N.J.) said today Congress should vote about \$1,000,000,000 this year to help pay for the French fight against communism in Indochina.

"We are going to have to carry the greater cost of the war again," he said in an interview. "We'll have to spend about the same as we are this year."

The United States has earmarked \$785,000,000 for the French war effort during the current fiscal year ending June 30. A spokesman for the Foreign Operations Administration said Congress is being asked to authorize about \$800,000,000 for fiscal 1955.

Smith, who heads the Senate's far Eastern affairs subcommittee and recently surveyed the Indochina situation, said "I don't feel as much alarm about the picture as some people."

"In fact I am very optimistic about an ultimate French victory," he said. "The biggest weakness is Paris. If they decided to pull out of Indochina it would be very serious."

Smith was not really worried about this, however, and said the United States should continue to do all it can short of direct intervention to help France fight the war to a successful conclusion.

The administration's decision to send 200 air force technicians to Indochnia and South Korea's offer to send a division have touched off a lively congressional debate over Far Eastern policy.

Sens. Walter F. George (D-Ga.) and John J. Sparkman (D-Ala.) told reporters yesterday that this country would get embroiled in an all-out Asiatic war with Red China the minute it sends any combat troops to Indochnia.

By using man-made mercury 198 and the wavelength of the green light that it emits as a standard scientists can measure with a precision of one part in 100 million.

P. M. for a demonstration on Trichon Painting.

The March meeting will be held at the home of Mrs. William Schooley.

Hopewell

Mrs. Theo Long, clothing leader, and Mrs. Oscar Hodnett, food leader had charge of the program at the Hopewell Home Demonstration Club meeting held in the home of Mrs. Ned Purle, February 4th.

Mrs. Long spoke on fashions, what makes fashions and what's new and good style this spring.

Mrs. Hodnett talked on cakes, yeast breads and baking powder breads giving the results of too little or too much flour, sugar and baking powder, and the difference in yeast breads using water, potato water or milk.

Mrs. John Keck demonstrated painting with tri chem paints, showing painting on cloth, china, glass and aluminum.

Mrs. Purle, president, reported on the Hempstead County Board of Directors Meeting. A letter from Miss Jean Lasseter telling of the club's project at the tuberculosis sanatorium was read.

During the recreation period, Mrs. Purle won the surprise package and Mrs. Keck the game prize.

Mrs. Purle served light refreshments to the following members: Mrs. Madeline Hodnett, G. W. Wiggins, Claude Byrd, Mandy Rogers, Maggie Tinkers, Leslie Honeycutt, Neil Osburn, Earnest Graham, R. M. Harrison, Theo Long, John Keck, Cecil Bittle, Charles Adkins, and two guests Mrs. Ned Oliver and Mrs. W. A. Cobb.

The March meeting will be March 4, at the home of Mrs. Cecil Bittle, with Mrs. Chas. Adkins as co-hostess.

Hinton

Fashions was one of the main topics of the Hinton Home Demonstration Club's February meeting at Patmos School. Mrs. Jimmie Griffin explained where fashions originate and previewed spring's best colors and styles in hats, suits, dresses and accessories. New fabrics and their uses were discussed by Mrs. J. E. McWilliams. The demonstration for the meeting was given by Mrs. Eldridge Forney who showed two cakes and gave reasons for the differences in texture and taste. She told several things to do to insure successful baking.

Mrs. Bryan Camp and Mrs. Garland Smith were co-hostesses. New members were Mrs. John Hardie and Mrs. Edward May. Others present were: Mrs. Madeline Nath Rider, Tom Drake, Oliver Rider, Noel Warren, Oscar Rider, Tommy Gibson, Howard Buffington, Stella Adams, Berlin Jones, Edna Simmons, Marion Hubbard, Monroe Kent and Glen McDonald.

King and Queen

selected at Banquet

Dale Hines and Kay Ward

selected King and Queen of the annual Sweetheart

Queen of the First Baptist Church

held Thursday evening,

January 11th, in the Lawson Hotel.

King and Queen were chosen

by the group by ballots.

James Duke, crown bearer, carried

gold crown on a satin pillow.

Dale McCoy of Gurdon had

charge of the coronation service.

There were 60 guests present and

Rev. McCoy spoke on

"Love's Response to Love."

Lee served as master of

ceremonies and introduced Mrs. McCoy

who presented 2 vocal solos

accompanied at the piano by Miss

Alice Byrd of Gurdon. Johnny

Gandy gave a humorous reading

"Love With Love" and David

Hanning sang a solo accom-

panied at the piano by Miss Simone

Duke.

A Valentine motif was carried

in the colorful table decorations.

The speakers' table was centered

with an arrangement of white

candles and white floral tapers in-

dispersed with red and white foam

candles with ribbon streamers lead-

ing to larger hearts. The other tab-

les were centered with a large red

heart with white bows. Small

heart containers were filled

with red and white frosted hearts.

Junior Class Has

Valentine Dance

Members of the Senior Class of

Prescott High School enjoyed

Valentine dance on Thursday ev-

ning at the Legion Hut.

Decorations carried out the Val-

entine motif and red crepe paper

streamers and balloons suspended

from the rafters added to the oc-

asion.

Refreshments were served dur-

ing the evening.

Andrea Ruth Taylor

celebrated Birthday

Andrea Ruth Taylor celebrated

seventh birthday last Saturday

afternoon with a party at her

home on west Main street.

The hour was spent in playing

games. Merle Buchanan won the

game in a game of "Ring the heart."

Priscilla Bensberg was win-

ner in a game of poison ball.

After the gifts were opened and

ice cream and cake were

served from a table laid with a

white cloth, trimmed in red paper

and centered with a beau-

tiful day cake. Red geraniums

and Valentine trees were placed at

the age points in the house. Favors

were paper blowouts. Guests were

in party hats by the honoree.

Those enjoying the happy oc-

asion were: Marcella and Gregg

Hanan, Priscilla Bensberg,

Carl Gay Dickerson, Janice Bonds

and Fred Buchanan, Betty Sue

Hart, Joe Escarre, Alex Gordon

Light, McBrayer, Becky Payne,

Alice Rawlins, Sandra Ward,

Alice Dean and Glenda Kay

Gordon and Bubba Ann

Hart, and Nancy Carol

Light.

Mrs. Taylor was assisted in the

decorations by Mrs. Curtis Ward,

mother of the honoree, Mrs.

Ward, and Mrs. Kenneth Led-

ger of Benton.

Mrs. Homer Ward, Mrs. J. W.

Homer Ward, Mrs. Wien Scott and Mrs.

P. Hamby motored to Little

Rock for the day.

## Bricker Plan Slows Senate Down Fast

By JAMES MARLOW

WASHINGTON (AP) — The Senate started 1954 fast. Then it bogged

down. Of course he might end up at Stanford but the fact that he has

changed his mind is satisfaction

enough for us."

The term "highball" in railroad

work derives from early signal

ing devices which placed a large

ball at the top of a pole when the

track ahead was clear.

down on the idea of amending the Constitution. Now it's playing by

the rules, and to provide for congressional regulation of executive agreements not submitted to the Senate.

Right after returning in January it gave quick approval for this country's joining Canada in developing the St. Lawrence seaway.

That was a step it hadn't been willing to take in the past 20 years. This time it was spurred on by President Eisenhower, who backed the seaway, plus notice from Canada she would act alone if Congress balked.

Then the Republican Senate leader, Sen. Knowland of California, trotted out something which Eisenhower didn't approve.

That was the proposal by Sen. Bricker (R-Ohio) to amend the Constitution so as to limit the scope of treaties negotiated by the President and ratified by the Senate.

That was the proposal by Sen. Bricker (R-Ohio) to amend the Constitution so as to limit the scope of treaties negotiated by the President and ratified by the Senate.

Those who urge it argue like this: states and individuals need

to be protected against action by some future president infringing on their laws or liberties.

Just as it seemed the whole idea of an amendment might go out the window, Sen. George (D-Ga.) came up with one of his own.

Bricker had a lot of support until then. His supporters began to melt away. That didn't stop days of debate though.

That was to be expected: Bricker's amendment involved Supreme Court decisions, treaties, agreements and acts of Congress going once back in history. It was a lawyer's field day.

Soon it became clear the Bricker amendment had no chance as it stood. Still, there was and apparently still is quite a bit of Senate debate over the proposal, held hearings, and ratified by the Senate.

For two years the Senate Judiciary Committee considered

Bricker's proposal, held hearings,

and George produced his

attempt to write out a constitutional restriction on treaties and agreements.

Those who urge it argue like this: states and individuals need

to be protected against action by some future president infringing on their laws or liberties.

Just as it seemed the whole idea of an amendment might go out the window, Sen. George (D-Ga.) came up with one of his own.
